SUMMARY

Results-driven Unity / C# Game Developer with 3+ years of professional experience in large-scale commercial ecosystems (20M+ downloads) and successful indie publishing (nearly 1M downloads). Expert in multiplayer netcode (Photon Quantum, Nettick, Fishnet) and diverse platforms including Mobile, VR, and Telegram TON. Adept at building reusable internal frameworks and modular systems to accelerate development workflows and ensure code scalability.

TECHNICAL SKILLS

Game Engines

Unity 3D/2D

Languages

C# .NET TypeScript

WORK EXPERIENCE

Unity Developer

May 2026 – Jun 2026

Corochti

Developed and optimized Unity mobile games (iOS, Android). Programmed gameplay, AI, UI/UX, and animations. Optimized game performance, memory, and resolved crashes. Integrated third-party SDKs (Ads Mediation, IAP, Firebase, etc.). Collaborated with design and art teams. Led and supported the developer team.

Unity Developer

Aug 2022 – Dec 2025

Wolffun Game Pte. Ltd

Developed mobile applications and games on Unity Engine, optimized performance, built gameplay, game UI, creative model editing features, and managed game resources effectively.

PROJECTS

Xóm nhỏ tuổi thơ

 Top 5 GameHub 2026

Simulation

Corochti

A nostalgic simulation game that brings Vietnamese childhood memories to life through relaxing countryside building and healing experiences.

- Responsible for creating features, maintaining the project, and fixing bugs

Unity3D

C#

Thetan Arena

MOBA / Action

10M+ Downloads

Wolffun Game

Global PvP NFT MOBA game combining competitive gameplay and blockchain technology.

- Integrated Thetan SDK (account management, NFT minting & collection) across the game ecosystem, enabling cross-game features
- Secured game integrity via Play Integrity API and obfuscation to prevent fraud
